I have been harrassed, slandered, doxxed, and had acts of cyber terrorism committed against me by Debbie Hollis. A police report was filed in 2018 and I messaged you during the campaign of 2019.

A much more severe attack occurred on June 2020. I STILL get threats. I was thrown into a shade room for illuminati, gangs, transgender teachers from NUMEROUS universities, etc attacked me online. I was slandered and harrassed. I have been unable to find a decent job since I ran for Sec of State Oct 2019. Yes I had imperative information I was trying to relay to folks that mattered during that campaign, that was my only reason for running was due to the election interference and the cyber ransomware. I was completely censored by Facebook and Google. I had an HBO actress attacking me online before I was banned. I had gangstalking in the form of attempting to stage an agitation against me in my local Super One Food.

Debbie was the leader of the Shreveport Chapter of NOW org. Hillary Clinton and Linda Saurus were the face of it. She has obtained grants for the Shreveport PD recently. The state police knew what occurred and I have evidence that I worked HOURS to place on a flashdrive that was never picked up. I want to pursue this matter further but I am unable to do so due to no assistance by state police. I can't even get a police report from them to file my lawsuit.

A FAKE MESSENGER was made on me that they shared to anger folks. It was FAKE. I had to resort to moving around for over two months.

I have all the evidence necessary to prove cyber terrorism against me by Debbie Hollis along with the Houston Chapter of BLM.

You could literally track an entire terrorists group by what occurred in June. I have massive amounts of screenshots. of threats and such but I have one specific screenshot where Debbie speaks to Hennessey Roses (the BLM operative that made the fake messenger) it was targeted slander against me.

I need assistance. I will not let this go. Can you please direct me to someone, anyone, that will investigate this matter and provide me with a report? She is running numerous corrupt non profits.

I found this site...she is literally the only CANDIATE on there. Only other listed folks are incumbent.

There is a small peg of the fake messenger that was made and shared. I have a file with about a thousand death threats with their profiles. This is a very well oiled terrorist network.
